Hitachi Hitachi Data Systems

hh0-120: Hitachi Data Systems Storage Foundations - Modular Exam

Practice Exam: hh0-120 Exams

Exam Number/Code: hh0-120

Exam Name: Hitachi Data Systems Storage Foundations - Modular Exam

Questions and Answers: 113 Q&As

([Hitachi Data Systems](#))

Exam : [hh0-120](#)

"Hitachi Data Systems Storage Foundations - Modular Exam", also known as hh0-120 exam, is a Hitachi certification. With the complete collection of exam questions, Just4Study has assembled to take you through 113 Q&As to your hh0-120 exam preparation. In the hh0-120 exam resources, you will cover every field and category in Hitachi Certification helping to ready you for your successful Hitachi Certification.

The exam questions cover the latest real test and with all the correct answer. we promise the Q&A for Hitachi Hitachi Data Systems hh0-120 (Hitachi Data Systems Storage Foundations - Modular Exam) examination of original title complete coverage. hh0-120 exam questions help you pass the exam.

Just4Study hh0-120 Feature:

* High quality - High quality and valued for the hh0-120 Exam: 100% Guarantee to Pass Your hh0-120 exam and get your Hitachi Data Systems certification.

* Authoritative - Authoritative braindumps with complete details about hh0-120 exam.

* Cheaper - Our Just4Study products are cheaper than any other website. With our completed Hitachi Data Systems resources, you will minimize your **Hitachi Hitachi Data Systems** cost and be ready to pass your hh0-120 exam on Your First Try, 100% Money Back Guarantee included!

* Free - Try free Hitachi Data Systems demo before you decide to buy it in <http://www.Just4Study.com>.

Just4Study Guarantee:

Just4Study provides the most competitive quality of all exams for the customers, we guarantee your success at the first attempt with only our Certification Question&Answers, if you do not pass the hh0-120 exam at the first time, we will not only arrange FULL REFUND for you, but also provide you another exam of your claim, ABSOLUTELY FREE!

Free hh0-120 Demo Download

Just4Study offers free demo for Hitachi Data Systems hh0-120 exam (Hitachi Data Systems Storage Foundations - Modular Exam). You can check out the interface, question quality and usability of our practice exams before you decide to buy it. We are the only one site can offer demo for almost all products.

The Questions & Answers cover the latest real test and with all the correct answer.we promise the Q&A for **Hitachi Hitachi Data Systems hh0-120** examination of original title complete coverage.hh0-120 Questions & Answers help you pass the exam. Otherwise,we will give you a full refund.

VUE/Prometric Code: hh0-120

Exam Name: Hitachi Data Systems Storage Foundations - Modular Exam(Hitachi Data Systems)

Questions and Answers: 113 Q&A

[Hitachi hh0-120](#) Test belongs to one of the Hitachi Data Systems certified test, if needs to obtain the Hitachi Data Systems certificate, you also need to participate in other related test, the details you may visit the [Hitachi Data Systems](#) certified topic, in there, you will see all related Hitachi Data Systems certified subject of examination. Just4Study professional provide Hitachi Data Systems hh0-120 the newest Q&A, completely covers hh0-120 test original topic. With our complete Hitachi Data Systems resources, you will minimize your Hitachi Data Systems cost and be ready to pass your hh0-120 tests on Your First Try, 100% Money Back Guarantee included!

Just4Study Help You Pass Any IT Exam

[Just4Study.com](#) offers incredible career enhancing opportunities. We are a team of IT professionals that focus on providing our customers with the most up to date material for any IT certification exam. This material is so effective that we Guarantee you will pass the exam or your money back.

Exam : Hitachi HH0-120

Title : Hitachi Data Systems Storage Foundations - Modular Exam

1. Customers are increasingly finding new ways for information technology departments to provide value to business.

How does Services Oriented Storage Solutions (SOSS) help our customers accomplish this?

- A. by matching the business value of data to the appropriate storage tier
- B. by increasing customer profitability by managing operational expenses
- C. by establishing Industry Standard Best Practices into everyday operations
- D. by providing a business-centric approach for aligning IT storage resources with business requirements

Answer: D

2. A customer is lowering their recovery time objective (RTO) and increasing the integrity of their backups by using backup to disk. The production data is on a USP V.

Which HDS array provides the most cost effective solution for backup to disk?

- A. USP100
- B. AMS2300
- C. AMS2100
- D. WMS100

Answer: D

3. You have been asked to choose one AMS2000 family storage system to provide remote access through iSCSI and local SAN support over Fibre Channel at the same time.

Which model will satisfy the customer's requirements?

- A. AMS2100
- B. AMS2300
- C. AMS2500
- D. AMS2800

Answer: C

4. How does the Hitachi AMS2000 family protect write data in cache to ensure data integrity?

- A. Write I/O is mirrored to cache in both controllers.
- B. Write I/O is mirrored to independent cache partitions.
- C. Write I/O is striped across two independent cache boards.
- D. Write I/O parity information is written to independent cache boards.

Answer: A

5. What is the function of HDD Roaming in the Adaptable Modular Storage family?

- A. It allows you to perform background HDD-scrubbing.
- B. It allows you to monitor the system for HDD failures.

- C. It allows you to increase RAID Group capacity dynamically.
- D. It allows you to specify RAID Group with HDDs regardless of RKA.

Answer: D

6. HDS Adaptable Modular Storage models AMS2100 and AMS2300 provide efficient cost-effective storage. Which three attributes characterize the AMS product line? (Choose three.)

- A. high availability
- B. cache partitioning
- C. ease of management
- D. large-scale virtualization
- E. dynamic provisioning

Answer: ABC

7. A customer is using Storage Navigator Modular to setup RAID Groups on a new AMS2100. Which three RAID levels are supported? (Choose three.)

- A. RAID-3
- B. RAID-6
- C. RAID-5
- D. RAID-4
- E. RAID-1+0

Answer: BCE

8. Which feature in Hitachi Dynamic Link Manager (HDLM) allows an administrator to remove an LU and a path without restarting the server?

- A. path failover
- B. dynamic reconfiguration
- C. dynamic deletion
- D. Disk Manager

Answer: C

9. A customer requires a new modular storage array which will use parity for data protection. When a drive fails in a RAID 5 Group, the remaining disks are each a single point-of-failure. A requirement is that the vendor must minimize the amount of time the array is in a single point-of-failure state following a disk failure.

Which two features of the AMS2300 support the requirement? (Choose two.)

- A. RAID 6
- B. RAID 5+1
- C. Dynamic Sparing
- D. Fast Disk Rebuild

Answer: AC

10. A customer is evaluating AMS storage arrays to provide storage for a high performance database that must be available 24x7.

Which HDS supported configuration meets their needs?

- A. AMS2100 with SATA drives
- B. AMS2300 with SAS drives
- C. AMS1000 with SATA drives
- D. AMS500 with FC drives

Answer: B

11. You want to maximize database performance by dividing cache into partitions.

What is the maximum number of partitions on an AMS2300 system?

- A. 4
- B. 8

C. 16

D. 32

Answer: D

12. Which three software features are supported on the Hitachi AMS 2000 family? (Choose three.)

A. Password Protection

B. Universal Replicator

C. TrueCopy Synchronous

D. Copy-on-Write Snapshot

E. TrueCopy Asynchronous

Answer: ACD

13. What are two advantages of Services Optimized Storage Solutions? (Choose two.)

A. It delivers storage infrastructure components that can be integrated to match application requirements.

B. It offers the ability to combine Fibre Channel SAN storage with IP-based storage.

C. It provides database administrators with the ability to provision and manage storage.

D. It offers application-centric, quality-of-service (QoS) data delivery, based on: performance, availability, cost, and protection requirements.

Answer: AD

14. A customer has multiple applications and one high performance application accessing an AMS2300. The high performance application consumes all system resources and is causing the other applications to slow down.

Which feature can be used to prevent the high performance application from monopolizing the AMS2300?

A. Cache Partition Manager

B. Server Priority Manager

C. Cache Residency Manager

D. Universal Volume Manager

Answer: A

15. An AMS or WMS storage system requires the PC running Storage Navigator Modular 2 to be attached to the system.

Which communication interface is used by Storage Navigator Modular 2 to talk with the system?

A. USB

B. LAN

C. iSCSI

D. Fibre Channel

Answer: B

16. Which two steps are required before using Hitachi Replication Manager? (Choose two.)

A. Replication Manager Agent must be installed.

B. RAID Manager or CCI must be installed.

C. Business Continuity Manager must be installed.

D. Hitachi Device Manager must be installed prior to the installation of Replication Manager software.

Answer: BD

17. A data warehouse application needs access to current data at multiple times during the day for billing and data mining.

What is used to create the online copy of the OLTP server within the same storage system?

A. TrueCopy

B. ShadowImage

C. Copy-on-Write Snapshot

D. TrueCopy Extended Distance

Answer: B

18. A customer has a WMS100 array to run an application with low performance and availability requirements.

Which WMS100 configuration would meet the requirements?

- A. SATA or FC disks
- B. one or two controllers
- C. one or two host FC ports per controller
- D. one or two back-end loops per controller

Answer: B

19. Which AMS2300 feature can be used to isolate the I/O of a MS Exchange application from a backup application?

- A. Host Storage Manager
- B. Cache Partition Manager
- C. Virtual Partition Manager
- D. Cache Residency Manager

Answer: B

20. A storage administrator wants to use TrueCopy to replicate volumes between an AMS2100 and an AMS2300.

How many S-VOL copies can be made from a single P-VOL?

- A. 1
- B. 2
- C. 4
- D. 8

Answer: A
