Exam : Juniper Networks jn0-320

Title : Juniper Networks Certified Juniper DX (DXAP) Associate Exam

1. Which three statistics are available when viewing the Cluster statistics page? (Choose three.)

- A. AppRule counters
- B. new SSL sessions
- C. connections to target server
- D. total number of 200 responses
- E. average download time per page

Answer: BCD

2. Which statement is true when you enable SSL for the WebUI?

- A. SSL is enabled for the WebUI by default.
- B. You must address the WebUI using HTTPS://.
- C. You must change the WebUI port when enabling SSL.
- D. The demokey and democert are applied to the WebUI by default.

Answer: B

3. You are configuring the DX appliance for the first time using the console. Which two configuration values can be set using the first time configuration screen? (Choose two.)

- A. the user role
- B. the ether0 IP address
- C. the default route for this DX appliance
- D. the address of a network TFTP server

Answer: BC

4. Which protocols are used to export and import configurations?

- A. FTP or SCP
- B. FTP or TFTP
- C. TFTP or SCP
- D. TFTP or SMTP

Answer: C

5. Which two functions require the use of the CLI? (Choose two.)

- A. adding a VLAN
- B. adding a cluster
- C. running a tcpdump
- D. adding a target server

Answer: AC

6. In which two situations should you run the command sync group? (Choose two.)

- A. when you enable Unified Failover
- B. when you create an ActiveN group
- C. when you synchronize the sticky table
- D. when you require synchronization of the 3G Cache objects

Answer: AB

7. What are three Juniper DX Cluster benefits? (Choose three.)

- A. performance
- B. authorization
- C. compression
- D. protocol validation
- E. UDP load balancing

Answer: ACD

8. How do you disable a server from Juniper DX Cluster without terminating active client requests?

- A. Delete the server.
- B. "Soft pause" the target server.
- C. "Hard pause" the target server.
- D. Create a new Cluster without the server.

Answer: B

9. From the DX WebUI Dashboard, which steps are used for creating a new admin user?

- A. Click Admin > Users. Enter username, password, role, account status, and email.
- B. Click Admin > Users. Enter username, password, role, account status, and user class.
- C. Click Users > Manage Users. Enter username, password, role, account status, and user class.
- D. Click Users > Manage Users. Enter username, password, ActiveDirectory domain, account status, and role.

Answer: B

- A. ping
- B. TCP health check
- C. Layer 7 health check
- D. request HTTP default page

Answer: B

11. What do you need to upgrade the DXOS?

- A. an upgrade .gz file placed on your FTP server
- B. an upgrade .tar file placed on your SCP server
- C. an upgrade .pac file placed on your TFTP or SCP server
- D. an upgrade CD provided by your Juniper Networks representative

Answer: C

12. Which statement is true when logging in using the WebUI?

- A. Port 80 for HTTP is enabled by default.
- B. Port 443 for HTTPS is enabled by default.
- C. Port 8090 for HTTP is enabled by default.
- D. Both HTTP and HTTPS are enabled using their standard port values.

Answer: C

13. Which statement is true about "sticky" load balancing for Clusters?

- A. The "clientip" setting does not apply to clusters, it only pertains to a Forwarder.

- B. When set to "clientip" it uses the client's IP address to bind the client to a particular target server.
- C. When set to "clientip" it allows a DX sticky cookie to be sent to and stored by the client based on the IP address.
- D. When set to "clientip" it ensures that all subsequent requests are directed to the same client that made the initial request.

Answer: B

14. Which two benefits does the Juniper DX provide? (Choose two.)

- A. It compresses all images.
- B. It protects servers from DDoS attacks.
- C. It protects servers from SynFlood attacks.
- D. It loads all content from web servers to flash.

Answer: BC

15. How does the Juniper DX accelerate web servers?

- A. by translating HTTP requests to HTTPS
- B. by refusing client connections that are unnecessarily refreshed by end users
- C. by multiplexing numerous client-side connections to fewer server-side connections
- D. by multiplexing numerous server-side connections to fewer client-side connections

Answer: C

16. An enterprise has a web application running both HTTP and HTTPS. How many Clusters must be created?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: B
